

M200-TFQ100

FRONT WIPE ON APPLICATOR

M200-TFQ100 is an easy functioning and fast Print& Apply system. It is in fact a long dispensing beak mounted on the printer. The main advantage lays in its simplicity with no unnecessary moving parts.

The M200-TFQ100 is perfect for front batch labelling of boxes etc that are of the same size and that moves in the same speed. It has the reliable, robust and easy to use design as seen on all the Domino family machines.

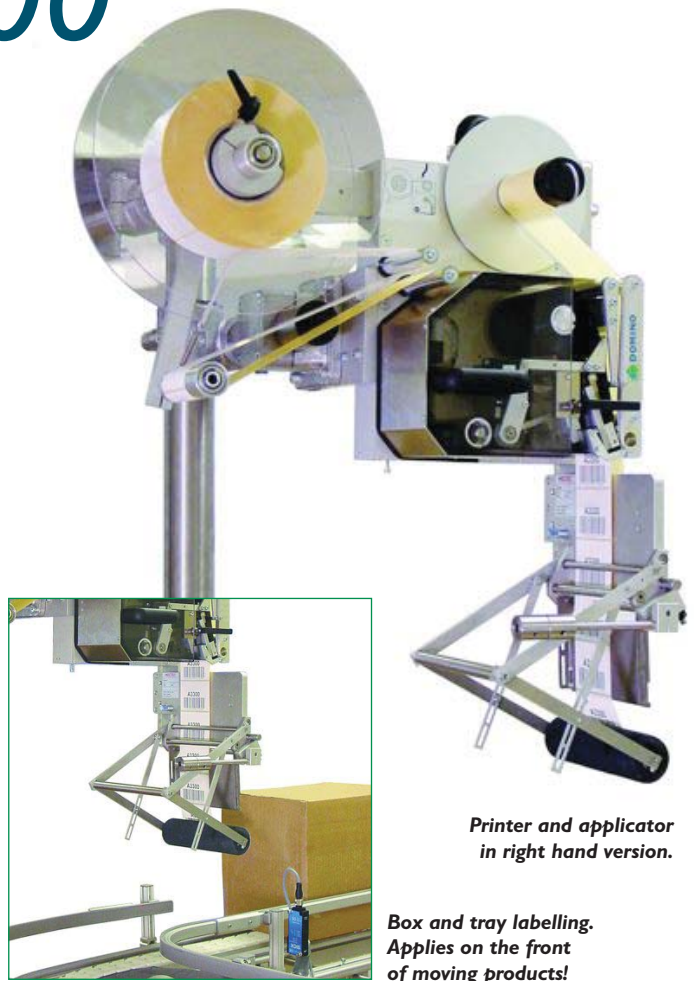

Technical Data
